

Health Insurance Plan of New York (HIP):

Novo Arts created artwork for HIP's entire headquarters in downtown New York. The scope of the project included large-scale paintings for their lobby entrance, paintings in all of the hallways and conference rooms, and in their executive suites. The project was ongoing over the course of a year of consulting and production. Novo Arts also did all of the installation and hanging in the space. Since their headquarters' completion, Novo Arts has continued maintenance of the artwork, additional framing and printing, as well as artwork for other HIP sites, including their complex in downtown Brooklyn.
