

# Swan and Dolphin Hotel, Orlando:

Novo Arts produced over twelve hundred individual works of art for all of the public spaces and meeting rooms in the Swan and Dolphin Hotel at Walt Disney World in Orlando. Working closely with Tishman Hotel Corporation's head designer, we created images to complement the overall space's vibrant design. For the imagery, half were chosen from the Novo Arts Image Bank, and others were custom designed specifically for the spaces. These large-scale prints, which allowed the client to fill very large areas within budget, were complemented by original paintings created for higher profile spaces.
